20 Solar Seals are arranged in 5 families, 4 seals in each family. Find out which family you belong to and draw the seals from your family in the four empty squares.

Each year, from birthday to birthday, you live one of those seals, in the order of red, white, blue, yellow, starting with the solar seal of your birth.

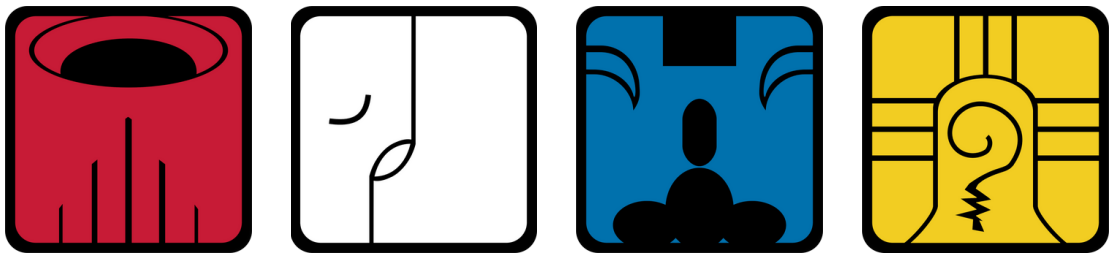

The galactic tones are listed in order from 1 to 13 and so on in a circle, starting with the galactic tone of your birth.

If you do everything correctly, you will see that in the 52nd year of your life, you will again live the same galactic signature as the one when you were born and you will start a new cycle.

HOW TO DETERMINE WHICH KIN BELONGS TO WHICH WAVESPELL?

Wavespell is a cycle of 13 days. Every Wavespell starts with the magnetic tone, which is represented by one dot and finishes with the cosmic tone, which is represented by two bars and three dots. Every solar seal has its own Wavespell, so there are 20 Wavespells inside the calendar.

Find your kin in the Tzolkin calendar. Go up until you reach the number with one dot. Check to which symbol that number belongs - that is the wavespell of your kin.
